

Special Area/ Value	Why	Concerns	Outcome/Mgmt Idea 1	Outcome/Mgmt Idea 2	Outcome/Mgmt Idea 3	Outcome/Mgmt Idea 4
Little Snake River, Baggs to 318	Archaeology resources	Roads				
Medicine Wheel	Archaeology resources	Roads				
Irish Canyon	Archaeology resources	Roads				
Diamond Breaks	Archaeology resources	Roads				
Swinging Bridge	Archaeology resources	Roads				
	Sage grouse breeding, viable population, with 10 populations of 100 males; Northwest CO Sage Grouse Working Group	Fragmentation of breeding/broodrearing habitat				
Ace in the Hole Draw (Dry Creek Area)	rare species, tri-state area, nowhere else in the world	Surface disturbance, weeds, herbicide				
West Boone Draw	rare species, tri-state area, nowhere else in the world	Surface disturbance, weeds, herbicide				
Whiskey Springs East Douglas Mtn Blvd with Ponderosa in Area	rare species, tri-state area, nowhere else in the world	Surface disturbance, weeds, herbicide				
Brown's Draw	rare species, tri-state area, nowhere else in the world	Surface disturbance, weeds, herbicide				
Vermillion Creek Falls	rare species, tri-state area, nowhere else in the world	Surface disturbance, weeds, herbicide				
Irish Canyon	rare species, tri-state area, nowhere else in the world	Surface disturbance, weeds, herbicide				
Dry Creek near Irish Canyon	rare species, tri-state area, nowhere else in the world	Surface disturbance, weeds, herbicide				

Special Area/ Value	Why	Concerns	Outcome/Mgmt Idea 1	Outcome/Mgmt Idea 2	Outcome/Mgmt Idea 3	Outcome/Mgmt Idea 4
Hells Canyon	rare species, tri-state area, nowhere else in the world	Surface disturbance, weeds, herbicide				
North Vermillion Bluffs	rare species, tri-state area, nowhere else in the world	Surface disturbance, weeds, herbicide				
Lookout Mountain	rare species, tri-state area, nowhere else in the world	Surface disturbance, weeds, herbicide				
Sugarloaf Buttes (South)	rare species, tri-state area, nowhere else in the world	Surface disturbance, weeds, herbicide				
Sugarloaf Buttes (southeast)	rare species, tri-state area, nowhere else in the world	Surface disturbance, weeds, herbicide				
South Vermillion Bluffs	rare species, tri-state area, nowhere else in the world	Surface disturbance, weeds, herbicide				
Spitzie Draw	rare species, tri-state area, nowhere else in the world	Surface disturbance, weeds, herbicide				
Vermillion Bluffs	rare species, tri-state area, nowhere else in the world	Surface disturbance, weeds, herbicide				
Vermillion Basin	rare species, tri-state area, nowhere else in the world	Surface disturbance, weeds, herbicide				
Cross Mountain	rare species, tri-state area, nowhere else in the world	Surface disturbance, weeds, herbicide				
East Boone Draw	rare species, tri-state area, nowhere else in the world	Surface disturbance, weeds, herbicide				

Special Area/ Value	Why	Concerns	Outcome/Mgmt Idea 1	Outcome/Mgmt Idea 2	Outcome/Mgmt Idea 3	Outcome/Mgmt Idea 4
Juniper Mtn	rare species, tri-state area, nowhere else in the world	Surface disturbance, weeds, herbicide				
Middle Yampa River	rare species, tri-state area, nowhere else in the world	Surface disturbance, weeds, herbicide				
G-gap	rare species, tri-state area, nowhere else in the world	Surface disturbance, weeds, herbicide				
G-gap southwest	rare species, tri-state area, nowhere else in the world	Surface disturbance, weeds, herbicide				
	Rare plant associations					
Cold Spring	Backcountry non-motorized recreation, sage grouse; wilderness characteristics					
Vermillion Basin	Archaeology resources, wilderness characteristics, semi-primitive backcountry non-motorized recreation, big game wildlife habitat, outstanding natural and scenic values, and livestock grazing					
Diamond Breaks	archaeological resources, wilderness characteristics, backcountry non-motorized recreation					

Special Area/ Value	Why	Concerns	Outcome/Mgmt Idea 1	Outcome/Mgmt Idea 2	Outcome/Mgmt Idea 3	Outcome/Mgmt Idea 4
Dinosaur Adjacents	watershed, wilderness characteristics, scenic					
Cross Mountain	scenic, wilderness characteristics, backcountry non-motorized recreation, river recreation, current ACEC with its values					
Yampa River	river recreation, wilderness characteristics, hunting					
Pinyon Ridge	wildlife habitat, wilderness characteristics					
Northwest of Big Hole Butte	Inactive sand dunes, sage grouse lek, scientific research (climate), scenic
